

HEBE

'CHOCOLATE BOX STRAWBERRY TRUFFLE'

A DARK AND DELICIOUS GARDEN TREAT

Another fine plant from the PGA Innovabred breeding program. This Hebe has a compact rounded form with jet-black leaves that makes a high-impact pot display and can be used as a unique mixed border feature in the garden. Selected for disease resistance and robust garden performance, this is a plant that will suit gardens in a wide range of climates. Perfect for mass-planting in landscapes, mixed garden plantings and balcony pots.

FEATURES

- Year-round colour interest
- Glossy black leaves that deepen in the cooler months
- Thrives in the sun
- Tough and easy-care plant
- Drought and wind tolerant once established

USES

- Perfect for exposed garden situations
- Easy-care and unique hedging plant
- Compact and tidy form, ideal for pots
- Colourful foliage for mixed border plantings

CARE

Very low water requirements are medium once established. If growing in containers, care should be taken not to allow to dry out completely. Clip to shape as a hedge or ball for formal gardens. Plant in a well-draining potting media in pots or in an enriched soil in the garden. Tidy after flowering by removing old flower heads. For best results, feed in late autumn and spring with a slow release fertiliser.

ORIGIN: Victoria, Australia // **SPECIES:** *Hebe x hybrida* (IB 605-8) // **PROTECTION STATUS:** PBR Protected
