

Salvia

LOVE AND WISHES'

LONG FLOWERING

Salvia 'Love and Wishes' shares the same great characteristics as 'Wendy's Wish' and 'Ember's Wish' from the Wish collection, which supports the Make A Wish Foundation. With a fantastic dome-shaped habit, fast growing and dry tolerant 'Love and Wishes' flowers are a tubular burst of deep purple. Its flowers are capped by a colourful calyx which remains some time after flowering extending its interest.

FEATURES

- Deep purple flowers right throughout the warmer months
- Tubular flower capped with a colourful pink calyx which remains some time after flowering extending interest even longer
- Large flower spike can grow to exceed 30cm in length
- Lush deep green foliage
- Fast growing

USES

- Mass plant in drifts for stunning, low maintenance displays
- Large containers
- Mixed garden beds
- Low maintenance and water-wise gardens

CARE

Grows well in most soil types but thrives in fertile well drained soils. Prune by one-third after flowering to maintain shape and vigour and encourage further flowering flushes. An application of slow release fertiliser in early spring is beneficial.

ORIGIN: Australia // **SPECIES:** *Salvia buchananii* hybrid // **PROTECTION STATUS:** PBR protected
